

# Awards and Recognitions

## Award Winning Designs

As a globally-recognized firm, IPS has been the proud recipient of multiple awards including 5 ISPE Facility of the Year Awards and the ISPE Company of the Year Award.

### **2015 Facility of the Year, Honorable Mention** **Pharmalucence - New Aseptic Filling Facility** *Billerica, MA*

This facility received industry recognition for the execution and entrepreneurial spirit demonstrated by the construction of the new aseptic filling facility by the consolidation of generic and contract manufacturing operations (4 buildings) into a single, state-of-the-art facility.

### **2014 Inc. 500/5000, List of the Fastest-Growing Private Companies in America**

IPS received recognition for a 131% growth in the past 3 years.

### **2012 Facility of the Year, Project Execution**

#### **Eisai - Knowledge Centre** *Vizag, AP, India*

The facility was recognized for designing and building of a Greenfield, state-of-the-art manufacturing and process research complex.

### **2011 Facility of the Year, Facility Integration** **Merck - Global Clinical Supplies Manufacturing, Packaging and Warehouse Expansion** *Summit, NJ*

A three-phased hybrid-build design construction approach was undertaken to consolidate global clinical supplies operations into a single, state-of-the-art clinical manufacturing, packaging and distribution facility.

### **2010 Facility of the Year, Operational Excellence** **Biogen Idec - LSM Facility Upgrade, Phase II** *Research Triangle Park, NC*

The project scope included the renovation and upgrade of a 250,000sf biological bulk manufacturing facility. This facility received industry recognition for its exceptional design, innovative modular construction methods, and strong safety record.

### **2008 Facility of the Year, Equipment Innovation** **BMS - Clinical Supplies Manufacturing and Drug Product Technology Expansion** *New Brunswick, NJ*

IPS brought early and late phase cGMP clinical manufacturing and development scale-up areas together within a single facility allowing BMS to develop and deliver increased compliance, productivity and technical innovation to meet present and future drug development pipeline.

### **2005 Company of the Year** IPS received recognition for our contribution to the industry.
